SOFTWARE

- Language:** English, Japanese, Korean, German, Turkey, Portuguese, Chinese
- Operation system:** Windows 7/8/XP/Vista
- Measuring tools:**

- | | | | |
|--|---|--|--|
| | measure length of line or distance between two points | | measure distance between point and line |
| | measure area of rectangle | | measure length of continuous line |
| | measure radius, length and angle of arc | | measure angle with three points |
| | measure distance between two parallel lines | | measure radius, girth and area of circle |
| | measure angle with two lines | | add number with circle |
| | measure distance between two circles | | add text |

Edge detection measurement:

- detect line automatically, and calculate length
- detect arc automatically, and calculate radius, angle and arc length
- detect circle automatically, and calculate radius, girth and area
- detect two parallel lines automatically and calculate distance
- detect two lines automatically, and calculate angle

Comparison:

Create line, angle or circle with desired size, to compare with workpieces
